

15TH ANNUAL
**REGIONAL
STORMWATER
CONFERENCE**

October 7-9, 2020

ONLINE EVENT

719 East Park Avenue • Tallahassee, FL 32301 • (866) FOR-SESWA [367-7379] • SESWA.ORG

October 7, 2020

Welcome to the Southeast Stormwater Association's 15th Annual Regional Stormwater Conference! On behalf of the Association, I want to personally thank you for taking time out of your busy schedule to join us. We recognize that you have a choice and we're so glad you're here!

This Conference and the Association are unique in that they bring together stormwater professionals from throughout the region to collaborate and learn from each other. The conference workshops are prepared and presented by practitioners like you. We are excited to have some of the most talented speakers from across the Southeast who possess a wealth of knowledge on stormwater management, finance, permitting and more. I hope you'll agree that we have put together an outstanding Conference agenda.

A couple of details . . .

- **Agenda** – The Agenda is available online at <https://www.seswa.org/2020agenda>.
- **Live Conference** – Access the live conference online at <https://www.seswa.org/2020live>. From the live conference webpage you can select the sessions that are of interest to you and easily navigate between rooms.
- **Chat** – During the live conference we encourage you to talk with your peers through the Chat feature on the Zoom toolbar. Share your comments and thoughts about the presentations and be sure to select “All Attendees and Panelists” before sharing to ensure that everyone can see your comments.
- **Questions** – Submit questions for presenters to answer live through the Q&A feature on the Zoom toolbar. Questions are encouraged and are a great opportunity to interact with presenters and further your education.
- **Continuing Education and Evaluations** – You will receive an email at the conclusion of each day for which you are registered for the conference. The email will include a link to an online Continuing Education and Evaluation Form. For details visit the CE section in this notebook.
- **Sponsors** – SESWA would like to thank all of the Annual Conference Sponsors! We encourage you to contact these sponsors to thank them for their support of SESWA. View sponsors messages on the presentations webpage at <https://www.seswa.org/2020presentations>.
- **Conference Materials** – You can access conference materials including presentations, the conference notebook, sponsor messages and more on the presentations webpage at <https://www.seswa.org/2020presentations>.

I would like to take this opportunity to thank our Conference speakers, sponsors and the Conference and Education Committee members. Their assistance and support make this event possible. We hope you enjoy your time with us!

Scott Hofer, President
Southeast Stormwater Association

Scott Hofer, PE

A Better State. A Better State of Mind. Forging the Path Ahead

US 17 Spring/Fishburne Drainage Improvements
Charleston, SC

Engineering a solution to a problem or tackling a massive infrastructure project often times requires an innovative approach. We know this because we've been tasked with leading and solving complex civil engineering issues across the Southeast for over six decades. Our approach has literally laid the groundwork in our state and built a framework for generations to come.

Unprecedented Approach. Inspired Solutions.

EXO NitraLED™

Nitrate Monitoring, Enlightened.

© 2020 Xylem Inc.

LIGHT UP YOUR MONITORING!

Expand and enhance your water quality monitoring program with UV Nitrate for more informed decision making.

LIGHTEN YOUR LOAD!

Fits in the palm of your hand—and integrates directly into any EXO Sonde. No external hardware required!

LIGHTEN YOUR BUDGET!

The world's most accessible monitoring solution for nitrate, at a fraction of the cost of lamp-based monitors.

2020 Annual Conference Agenda

SCHEDULE IS SUBJECT TO CHANGE

[Wednesday](#) - [Thursday](#) - [Friday](#)

Wednesday, October 7, 2020 / Pre-Conference

1:00 p.m. - 3:00 p.m.

(Pre-Conference Workshop)

2.0 credits

***Separate Registration
Required***

Pre-Conference Workshop - Making the Virtual World Work for Your Needs

The current climate has forced us all to think outside of the box as we adapt to conducting work virtually. Join us as we take a look at providing education, public outreach and employee training virtually and how to include all interested stakeholders. This workshop will review how your colleagues are switching to virtual platforms and share some the lessons they learned along the way.

*Charles Jarman Jr., PE, Water Resources Engineer
Clemson Cooperative Extension, SC*

*Kristen O'Reilly, Water Quality Program Specialist
City of Charlotte, NC*

*Sharnelle Currence, Senior Public Information Specialist
City of Charlotte, NC*

*Spencer Peck, JD, MA, Environmental Policy Specialist
City of Atlanta, GA*

Thursday, October 8, 2020 / Regular Conference

9:00 a.m. - 10:00 a.m.

(General Session)

1 credit

Welcome & Opening Address

*Scott Hofer, President
Southeast Stormwater Association*

*Danielle Hopkins, Executive Director
Southeast Stormwater Association*

Stormwater Management Regulations – A Southeast Perspective

This session will give you a better understanding of how permitting programs and proposed changes to regulations can impact your jurisdiction. New regulations, programs and their potential impacts will be discussed along with strategies for implementation. Audience questions will be encouraged.

*Jeaneanne Gettle, Director Water Division
US Environmental Protection Agency, Region 4*

*Mohammad Jazil, Attorney
Hopping Green & Sams*

10:00 a.m. - 10:10 a.m. *Break in Exhibit Hall*

10:10 a.m. - 10:55 a.m. *Watershed Asset Prioritization on Condition Assessment and Flood Resiliency*

*(Track A)
0.75 credits*

The Dupont-Wappoo (DuWap) watershed is approximately 1,600 acres and located within the City of Charleston. The City conducted an assessment of the existing stormwater infrastructure in an effort to make recommendations for improvements with regard to surface water management. This presentation will review the study, how existing assets were evaluated and how scores were assigned in terms of operational condition and flood resiliency. Find out how this assessment enabled the City to identify critical flooding areas and assign prioritization to projects thereby reducing costs and maximizing benefits.

*Pradeep Nagarajan, PE, CFM, Technical Practice Leader
AECOM*

*Kinsey Holton, PE, Stormwater Program Manager
City of Charleston, SC*

10:10 a.m. - 10:55 a.m. *MS4 Audit Success Stories*

*(Track B)
0.75 credits*

Preparing for and passing an audit is more than receiving a notice of compliance, it's an opportunity to improve your program and ultimately protect receiving waters. In this session attendees will hear from fellow MS4 permittees who will share what to expect before, during and after an audit to better prepare for and get the most out of the experience.

*Crystal Bishop, CPMSM, QHP, Program Manager
Hamilton County, TN*

*John Butler, Water Resources Outreach Manager
Gwinnett County, GA*

*Lisa Kirby, PE, CFM, Director of Engineering
City of Greenville, NC*

*Daryl Norris, PE, CFM, CPSWQ, Civil Engineer II - Stormwater
City of Greenville, NC*

10:55 a.m. - 11:05 a.m. *Break in Exhibit Hall*

11:05 a.m. - 11:50 a.m. *How to Save Nichols, South Carolina - A Small Town Lost in the Floods*

(Track A)
0.75 credits

In 2016, the small town of Nichols, South Carolina, was nearly wiped off the map when Hurricane Matthew caused devastating flooding across eastern South Carolina, and again in 2018 due to Hurricane Florence. This presentation will explain why Nichols saw such historic rain events so closely together, as well as what the town can do to protect itself in the future.

*Crystal Muller, PE, Engineer Project Manager
Woolpert*

11:05 a.m. - 11:50 a.m. FDOT - Innovative MS4 Program Initiatives

(Track B)
0.75 credits

To meet the challenges of a rapidly growing population and to fulfill its mission to provide a safe transportation system that preserves the quality of Florida's environment, the Florida Department of Transportation (FDOT) has developed innovative approaches to stormwater management, asset maintenance, and environmental stewardship. Learn about FDOT's unique strategies for MS4 permit implementation.

*Steven Peene, PhD, Principal
Applied Technology & Management*

11:50 a.m. - 12:50 p.m. Lunch Break

12:50 p.m. - 1:35 p.m. Re-Wilding Streams and Floodplains to Enhance Ecosystem Services

(Track A)
0.75 credits

Streams and floodplains are important components of developed landscapes that can provide many benefits and services to communities. The process of re-wilding streams and floodplains can greatly enhance ecosystem services by reintroducing natural elements to the stream corridor. This presentation describes the process and outcomes of re-wilding urban streams and floodplains, including daylighting piped streams, stream channel realignment and floodplain reconnection, removal of barriers to aquatic organism passage, and more.

*Greg Jennings, PhD, PE, President
Jennings Environmental*

12:50 p.m. - 1:35 p.m. Rock Hill, South Carolina - A Proactive Stormwater Program

(Track B)
0.75 credits

The City of Rock Hill, South Carolina completed a city-wide watershed modeling initiative with the primary goals of identifying flood prone areas upstream from FEMA regulated streams and creating a prioritized Capital Improvement Project program. This presentation will review how proactive watershed modeling can not only be used to identify flooding, it can also effectively regulate new development and enhance the ability to leverage low interest loans and grant funding.

*Stephen Sands, PE, Senior Associate
Hazen and Sawyer*

*David Dickson, PE, Stormwater Manager
City of Rock Hill, SC*

1:35 p.m. - 1:45 p.m. Break in Exhibit Hall

1:45 p.m. - 2:30 p.m. Implementing Beaver Dam Analogs in Atlanta's Nancy Creek Watershed

(Track A)
0.75 credits

The Blue Heron Nature Preserve Beaver Dam Analog (BDA) project is a restoration project located in Atlanta, Georgia. With assistance from a 319(h) grant, Atlanta developed an innovative approach using a series of BDAs and Post-Assisted Log Structures to facilitate "low-tech" process-based restoration of an incised stream and wetland. This presentation highlights the lessons

learned from implementing this type of grassroots, restoration approach in an urban setting with an interdisciplinary team.

*Glen Behrend, PE, Civil Engineering Manager
City of Atlanta, GA*

*Ty Smith, PE, Principal Engineer
Hazen and Sawyer*

1:45 p.m. - 2:30 p.m.

(Track B)

0.75 credits

Establishing Citywide Watershed Master Plan to Deliver Flooding Solutions

This presentation will highlight the City of Fayetteville, North Carolina's efforts in developing a comprehensive framework that can then be utilized to identify and address stormwater infrastructure needs throughout the City. This framework provides a proactive approach that includes a robust geodatabase and integrates their long-range growth and development plans.

*Sheila Thomas-Ambat, PE, CCM, CFM, Public Services Director
City of Fayetteville, NC*

*Edward Dickson, PE, CFM, Senior Project Manager
Freese and Nichols*

2:30 p.m. - 2:40 p.m.

Break in Exhibit Hall

2:40 p.m. - 3:25 p.m.

(Track A)

0.75 credits

Stream Bank Repair: New Opportunities to Address Water Quality Concerns

Clemson Extension has a new statewide Stream Bank Repair program to address the health of riparian areas along small streams. This can benefit water quality and assist with NPDES permit compliance. This presentation will share how the workshops focus on knowledge and technical skills needed for stream bank repair without the cost and permitting requirements of stream restoration.

*Katie Altman, Water Resource Agent
Clemson Extension, SC*

*Karen Jackson, Water Resource Agent
Clemson Extension, SC*

2:40 p.m. - 3:25 p.m.

(Track B)

0.75 credits

Keeping Up with the Times - 2D's Role in Modernizing Drainage Study Program

The Town of Hilton Head Island, South Carolina is midway through the build-out phase of a comprehensive Island-wide, stormwater inventory and modeling program. Recent advances in 2D hydrologic and hydraulic modeling are being incorporated as new watersheds are studied, all while keeping earlier watershed studies comparable in methodology. This presentation will reveal how previous studies and the current modeling technology are changing the City's long-term approach toward drainage studies.

*Jeffrey Netzinger, PE, Stormwater Manager
Town of Hilton Head Island, SC*

*Jason Johns, PE, Project Manager
Woolpert*

*Steve Godfrey, PE, CFM, Senior Modeler
Woolpert*

3:25 p.m. - 3:35 p.m.

Break in Exhibit Hall

3:35 p.m. - 4:20 p.m.

(Track A)

0.75 credits

Tennessee's MTD Guidance Document - A Collaborative Story in Motion

As manufactured treatment device (MTD) testing protocols and technologies advance, it is important for MS4 communities to stay abreast of the most up-to-date information. Find out more about a collaborative approach to develop a guidance document regarding Stormwater MTDs. The goal is to help educate MS4 staff, by compiling and summarizing the most commonly accepted field and lab MTD testing protocols.

*Crystal Bishop, CPMSM, Stormwater Manager
Hamilton County, TN*

*Jason Bates, Engineered Products Manager
Advanced Drainage Systems*

3:35 p.m. - 4:20 p.m.

(Track B)

0.75 credits

Engaging Stakeholders to Develop a Watershed Research Master Plan

The Water Tower, a new global innovation hub in Gwinnett County, Georgia is leading the effort to create a forum through which stakeholders and researchers will work together to develop a Lake Lanier Watershed Research Master Plan. This presentation will outline the plan development approach and discuss how the plan will be used to guide research efforts within the Lake Lanier watershed.

*Steve Leo, Client Service Manager
Constantine Engineering*

*Jeff Mosher, Principal Technologist
Carollo Engineers*

*Kristan VandenHeuvel
The Water Tower*

4:20 p.m. - 4:30 p.m.

(General Session)

0.25 credits

Wrap Up

Friday, October 9, 2020 / Regular Conference

9:00 a.m. - 9:15 a.m.

Welcome

9:15 a.m. - 10:00 a.m.

(Track A)

0.75 credits

High Definition Stream Survey Methods for a MS4 Stormwater Permit

The High Definition Stream Survey (HDSS) technique enables the collection of geo-referenced video along with continuous in-stream, streambank, water quality, and bathymetric data over long reaches of ditch, stream, river or shoreline. This presentation highlights how data and the HDSS methods were used for the City of Cleveland, Tennessee's MS4 Stormwater Permit.

*Brett Connell, Hydrologist
Trutta Environmental Solutions*

9:15 a.m. - 10:00 a.m.

(Track B)

0.75 credits

Building Beautiful Resiliency: Parks, Ponds And Pollutants

The City of Columbia, South Carolina addressed three problems with one project: flooding in an important entertainment district, water quality in an impaired stream, and an underutilized urban park. This project shows that building more resilient infrastructure can go hand-in-hand with creating a more aesthetic and livable city.

*Molly Davis, EIT, Water Resources Engineer in Training
Woolpert*

*Wesley Harrison, PE, Senior Civil Engineer
City of Columbia, SC*

10:00 a.m. - 10:10 a.m. *Break in Exhibit Hall*

10:10 a.m. - 10:55 a.m. *Success Story: Significant Bacteria Reduction From BMP Implementation*

(Track A)

0.75 credits

Find out how a cooperative partnership among three counties, South Carolina Department of Health and Environmental Control (SCDHEC) and other stakeholders addressed the need for a 71% bacteria load reduction in the 25 Mile Creek Watershed. Learn how the implementation of best management practices through grant funding resulted in a reduction by almost HALF of the number of exceedances to bacteria water quality standards.

*Angela Vandelay, PE, Senior Engineer
Wood Environment & Infrastructure Solutions*

*Chanda Cooper, Education Program Coordinator
Richland Soil and Water Conservation District, SC*

10:10 a.m. - 10:55 a.m. *Big Creek Drainage Study and Flood Mitigation Design Project*

(Track B)

0.75 credits

Significant areas along Big Creek, including the City of Millington, Tennessee and a naval base, flooded during the historic May 2010 flood that occurred in Shelby County, Tennessee. This presentation will review how modeling this historic event, along with smaller frequency storms, was used to develop flood mitigation alternatives that reduce the potential for future flooding.

*Adrian Ward, PE, CFM, CPESC, Vice President
Barge Design Solutions*

10:55 a.m. - 11:05 a.m. *Break in Exhibit Hall*

11:05 a.m. - 11:50 a.m. *Implementing a Stormwater Utility with Rural and Urban Drivers*

(Track A)

0.75 credits

Subject to nutrient management regulations in two watersheds, unincorporated Durham County, North Carolina has significant stormwater program and funding pressures. This presentation provides information on how the County is addressing the unique challenge of addressing both urban, rural, and agricultural concerns as they implement a stormwater utility.

*Katie Cromwell, Manager
Raftelis*

*Ryan Eaves, PE, CFM, CPESC, Stormwater and Erosion Control Division Manager
Durham County, NC*

*McKenzie Myers, PE, CFM, Stormwater Manager
Durham County, NC*

11:05 a.m. - 11:50 a.m. *Tidal Surge Protection for Coastal Fresh Water Irrigation as Sea Levels Rise*

(Track B)

0.75 credits

We continue to see more and more significant tidal events which push saltwater farther and farther into our freshwater impoundments. This presentation outlines how one coastal community has taken a proactive approach to retrofitting their stormwater facilities to reduce the potential for saltwater contamination of a freshwater irrigation supply while also helping to preserve their stormwater storage capacity.

*Robert Horner, PE, VP & SC Regional Manager
Weston & Sampson Engineers*

11:50 a.m. - 12:00 p.m. *Break in Exhibit Hall*

12:00 p.m. - 12:45 p.m. **Federal Update and National Stormwater Trends**

(General Session)

0.75 credits

The National Association of Clean Water Agencies will provide an update on water-related issues and US EPA's stormwater program priorities at the national level, focusing on stormwater policy and permitting programs.

*Emily Rimmel, Director of Regulatory Affairs
National Association of Clean Water Agencies*

12:45 p.m. - 1:00 p.m. **Wrap Up**

(General Session)

0.25 credits

LET'S PARTNER TO INFLUENCE OTHERS THAT STORMWATER IS NOT OPTIONAL.

WE ARE HERE TO SUPPORT YOU IN YOUR EFFORTS TO PROTECTING LOCAL WATERSHEDS AND THE ENVIRONMENT.

HOW AQUALIS ASSISTS REGULATORY BODIES:

ANNUAL INSPECTIONS

AQUALIS is certified to provide inspections and produce the required documentation to keep commercial properties in compliance all within the scheduled due dates.

NOTICE OF VIOLATIONS

In the case of a NOV, we work directly with the regulatory body and property manager for swift action to avoid further impacts to the environment.

EDUCATING PROPERTY OWNERS

As the leader in stormwater and lift station management, we are proud to educate property owners on the importance of preventative maintenance and stormwater compliance.

AQUALIS SERVICES OVER 2800 LOCATIONS IN THE SOUTHEAST AS A STORMWATER AND LIFT STATION MANAGEMENT PROVIDER WITH SERVICES INCLUDING:

- MAINTENANCE
- REPAIR/ REHABILITATION
- INSPECTIONS
- CONSULTING
- CCTV PIPE INSPECTIONS
- INDUSTRIAL VACUUM & JETTING
- EMERGENCY SERVICES

To learn more about AQUALIS, visit our website at aqualisco.com or call us at **855-236-1160**.

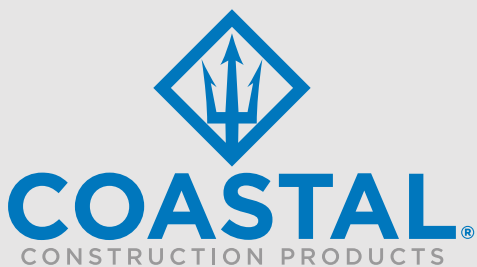

**Experience
that sets the
standard.**

**Anyone can tell you to read a data sheet,
but we'll share our industry experience.**

Our team provides solutions, not just products. We'll share industry experience so you can feel confident knowing that your job can be completed on time and on budget.

15th Annual Regional Stormwater Conference

Continuing Education Instructions

Professional Engineers: Professional Engineers, Certified Floodplain Managers and anyone requesting a certificate of attendance are eligible for credits based on the sessions attended. SESWA offers continuing education for Professional Engineers in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee. Of these states, Florida and North Carolina require that continuing education providers be approved in advance. SESWA is an approved provider for Florida (#0004288) and North Carolina.

All Other Professions: SESWA is happy to provide you with a Certificate of Attendance for attending our conference. A certificate of attendance will be sent to all attendees that complete a Continuing Education and Evaluation Form(s).

Instructions: You will receive an email at the conclusion of each day for which you are registered to participate in the conference. The email will include a link to an online Continuing Education and Evaluation Form. **You must fill out a form for each day that you are requesting continuing education.** We will only be able to accept forms during the conference; forms cannot be submitted after the conference.

After the conference, SESWA will email you a Certificate of Attendance showing the total number of continuing education hours you received. You can use that certificate as proof of attendance.

If you have questions please contact SESWA for clarification at info@seswa.org or call us at 866-367-7379.

eSWPPP
A DIVISION OF NEWKIRK ENVIRONMENTAL

eSWPPP: Make Compliance Simple

More Efficient. More Thorough. Less Time. Less Hassle.

Your NPDES stormwater permits require weekly inspections. Make it as simple and as organized as possible through revolutionized stormwater reporting and compliance with eSWPPP:

- Efficient document management and storage
- Automatic email communication
- Comprehensive, site-specific inspection reports with photographs
- Regulatory format options with the ability to customize

HELPING WATER PROFESSIONALS AND FIRST RESPONDERS MAKE DECISIONS

with reliable data for over 100 years

Professionals that deal with precipitation have observed that heavy rainfall events have become more frequent and intense in recent years, even in regions that have not been known to be flood hotspots.

Many municipalities are confronted with these intense rain events, and local communities, cities, towns, townships and counties must adapt to the new events. The staff that are responsible for stormwater programs, fire departments and first responders must actively search for solutions that provide reliable equipment and trustworthy communication.

In this series the following items will be reviewed:

- An overview of making communities flood proof
- Components of a Flood Monitoring Network
- Component Selection Guide
- Examples of successful networks
- OTT HydroMet Solutions

PRECAST POROUS CONCRETE

- Easy to lift...move...place...maintain
- Removable, reusable
- Precast in controlled conditions
- Ready to use
- 1-year warranty

PATENT PENDING

STORM CRETE®

When it Rains...it's Porous™

RYMAR™

WATERWORKS INNOVATIONS

AN **IMPROVED** TOOL IN STORMWATER MANAGEMENT

MARLEE FLOAT™

A RYMAR INNOVATION

The **Marlee Float™** is the **MOST** effective and affordable skimmer on the market. Its unique, patented design has a shielded weir to prevent clogging and draw water from just below the surface, which keeps floating trash and debris in the basin while increasing sediment trapping efficiency.

FIVE Reasons To Buy The Marlee Float:

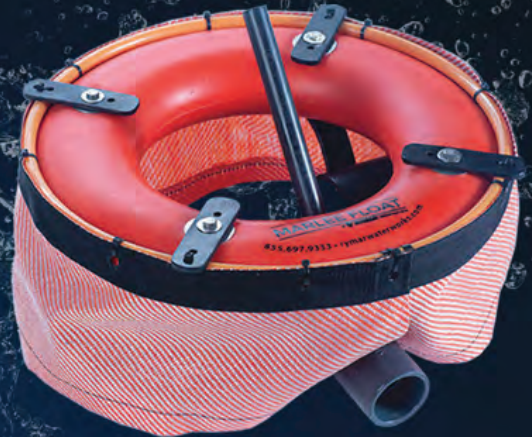

UV RESISTANT DESIGN

SKIRT REDUCES CLOGGING

WON'T TIP OR TWIST

GREAT TO MOVE FROM PROJECT TO PROJECT

BROAD RANGE OF SIZES AND FLOW RATES

A SEDIMENT BARRIER THAT WON'T BACK DOWN

VERSA WATTLE™

A RYMAR INNOVATION

The **Versa Wattle** is a revolutionary erosion control product that effectively filters out sediment while also diverting stormwater on construction sites. It is designed to remain secure, durable, and not fold under the pressure of heavy rain and mud or large vehicles and heavy machinery.
