

# Pre-Construction Planning of BMPS

April 13, 2018

Jonathan Smith, PE – Tetra Tech

# Best Management Practices

- Four Key Phases to Success

**1. Pre-Construction/Planning**

**2. Construction**

**3. Closeout**

**4. Long Term Mgmt/Maintenance**

# Pre-Construction Planning: What is it?

- Everything necessary to get your municipality ready for BMP implementation
  - Performance standard(s)
  - BMP practice list
  - Design guidance
  - Ordinance(s)
  - Staff training
  - Stakeholder outreach

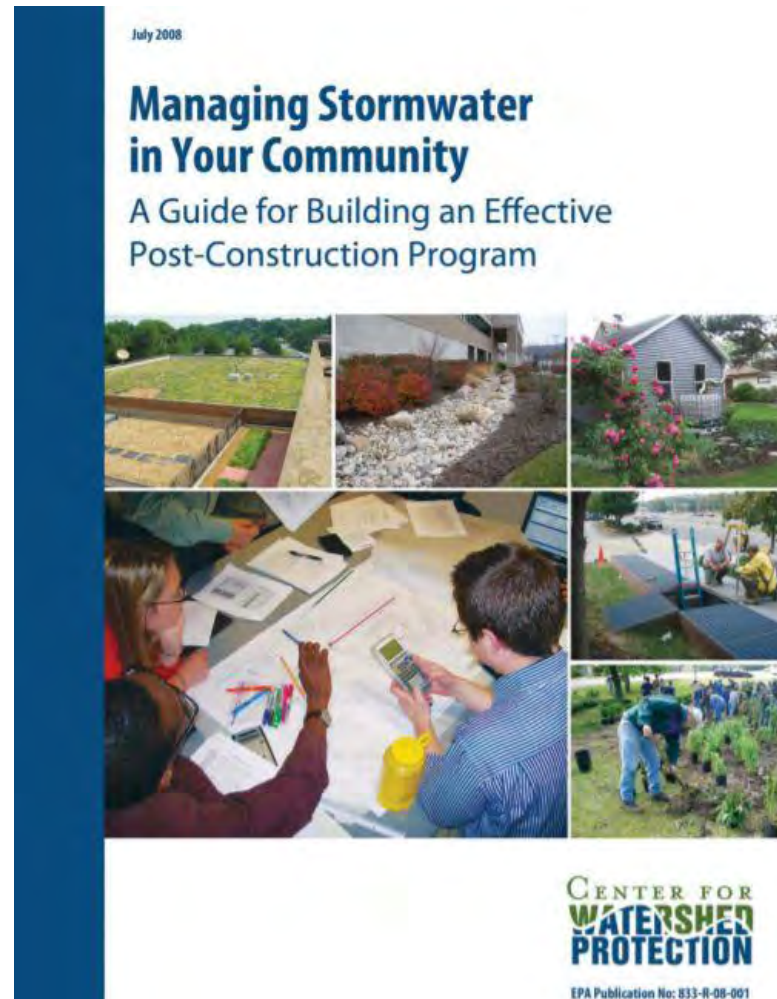

## Final Report

International Stormwater BMP Database  
2016 Summary Statistics

# Remember

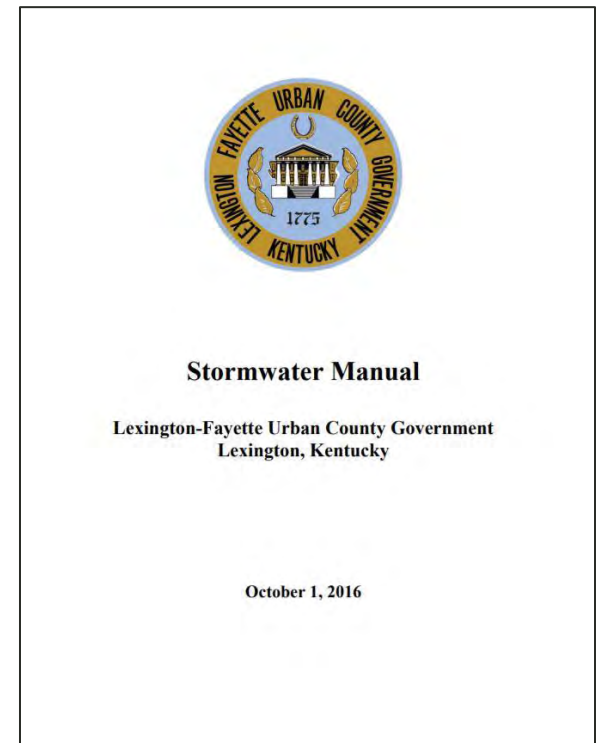

- You aren't the first
- You are not alone
- Build your team and engage with stakeholders
  - First step of outreach/education program
- Communicate internally

# Develop Clear Design Guidance

- Reconcile with permit conditions
- Engage design community
- Learn from others
- Adaptive criteria

# Key Questions to Answer

- How were ordinances established?
- Which BMPs are acceptable?
- What design standards are applicable?
- How were stakeholders involved?
- Lessons learned?

# Questions and Discussion
